Authorisation of imports of GM soyabean MON 94637

Published by AGRINFO on 11 Jun 2026

Commission Implementing Decision (EU) 2026/1185 authorising the placing on the market of products containing, consisting of or produced from genetically modified soybean MON 94637

What is changing and why?

The European Union (EU) has approved foods, food ingredients, feed, and products containing, consisting of, or produced from genetically modified (GM) soyabean MON 94637 to be placed on the EU market. The authorisation does **not** permit the cultivation of this soyabean in the EU.

The approval is based on a favourable opinion by the European Food Safety Authority that GM soyabean MON 94637 is safe for human and animal health, as well as the environment. There are no nutritional concerns associated with consuming this soyabean.

Timeline

The EU authorisation for GM soyabean MON 94637 applies from 2 June 2026 and remains valid for 10 years (until June 2036).
