Single-use plastics and fishing gear measures – evaluation

The SUPD evaluation

Since July 2021, operators placing packaged food or beverages on the European Union (EU) market have had to comply with the objectives of the Single-Use Plastics Directive (a later date has applied for some requirements).

The European Commission is now collecting feedback from operators as part of a review of how the Single-Use Plastics Directive is working in practice. The Commission is also looking at whether some rules should be simplified to reduce administrative tasks and costs for companies.

Actions

Operators within and outside the EU can provide feedback via the European Commission's [Have Your Say](#) webpage until **17 March 2026**.

Stakeholders wishing to respond must be registered. Those who do not already have an account will first need to [create an EU login account](#), then register their organisation on the [EU Transparency register](#).

Timeline

Operators who must comply with the SUPD and/or are involved with its implementation can provide feedback until **17 March 2026**.

For more information see the [full record](#) on the AGRINFO website – where you can also view the latest [AGRINFO Update](#) newsletters and [search](#) the database.
