EFSA invites submission of data to support review of certain MRLs

Published by AGRINFO on 28 Mar 2024

Call for expressions of interest to submit data for 10 non-approved active substances to review MRLs

What is changing and why?

The European Food Safety Authority (EFSA) is seeking additional toxicological data in relation to the review of maximum residue levels (MRLs) for the following pesticides: azocyclotin, bifenthrin, chlorfenapyr, cyhexatin, diazinon, dicofol, endosulfan, fenarimol, fenpropathrin, and profenofos.

EFSA's previous reviews of these substances found the data to be outdated. The European Commission and EU Member States decided that stakeholders should have the opportunity to submit other data that has not been considered so far by EFSA. EFSA has now launched this process.

Actions

The deadline for submitting data to EFSA expired on 7 May 2024.

Timeline

Submission of interest closed on 7 May 2024.
Deadline for submission of data (after confirmation of interest) expired 8 July 2024.
