

# EU fishing opportunities for 2024–2026

Published by AGRINFO on 16 Nov 2023

## Regulation

[Proposal](#) for a Council Regulation fixing for 2024, 2025 and 2026 the fishing opportunities for certain fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters, and amending Regulation (EU) 2023/194 as regards deep-sea stocks

## What is changing and why?

The European Commission proposes fishing opportunities in EU and non-EU waters for 2024, 2025, and 2026. The EU has a voice and vote in the decisions of most regional fisheries management organisations (RFMOs) worldwide. Where such organisations decide on fishing opportunities or total allowable catches (TACs), or take other measures regarding the management of fish stocks in their areas of responsibility (Convention areas) that affect EU Member States, those measures must be implemented in EU law.

## Timeline

The Regulation applies from 1 January 2024 to 31 December 2024.
