Feed additives: August–September 2025 authorisations

Published by AGRINFO on 10 Oct 2025

Overview of recent feed additive authorisations

Commission Implementing Regulations 2025/1782, 2025/1784, 2025/1787, 2025/1795, 2025/1915, 2025/1928

Update

Overview of the latest authorisations of feed additives and their use in animal nutrition in target animals.

Impacted products

Prepared fodder

Authorisations

In August–September 2025, the European Union (EU) authorised the feed additives listed in Table 1, based on opinions published by the European Food Safety Authority (EFSA; see Resources). The conditions of use are described in the respective Regulations.

Applications for the above authorisations were submitted and considered by the Reference Laboratory set up by the Feed Additives Regulation (1831/2003).

Timeline

The authorisations remain valid until the end dates listed in Table 1.

What are the major implications for exporting countries?

With these authorisations, more feed additives will be available on the market. Authorisations and renewals are valid for 10 years. The use of all preparations and substances specified as feed additives must comply with the provisions of use specified in the Annex to each Regulation.

Recommended Actions

Non-EU countries producing feed additives, compound feed, and feed materials for export to the EU are recommended to check the status of additives in the EU Feed Additives register.

To be able to filter and to see more information, it is advised to download the register in Excel (see Food and Feed Information Portal: Feed Additives > Download Register in Excel format).

Background

The procedure for authorising the placing on the market and use of feed additives is set out in Regulation 1831/2003.

Tables & Figures

Table 1
New authorisations of feed additives (August–September 2025)

Regulation	Additive	Use	Target	End date
2025/1782	Chromium chelate of DL-methionine	Zootechnical additives	Salmonids	29 Sep 2035
2025/1784	Capsaicin	Animal nutrition	Poultry, porcine species, ruminants and camelids, equines, leporids (rabbits and hares), salmonids, minor finfish	30 Sep 2035
2025/1787	L-arginine	Flavouring compounds and amino acids, their salts and analogues	All animal species	29 Sep 2035
2025/1795	Riboflavin or vitamin B2	Nutritional additives	All animal species	29 Sep 2035
2025/1915	L-tryptophan	Animal nutrition	All animal species	16 Oct 2035
2025/1928	Lutein-rich extract	Colourants	Turkeys for fattening	16 Oct 2035
