Authorisations

In August–September 2025, the European Union (EU) authorised the feed additives listed in Table 1, based on opinions published by the European Food Safety Authority. The conditions of use are described in the respective Regulations.

Actions

Non-EU countries producing feed additives, compound feed, and feed materials for export to the EU are recommended to check the status of additives in the EU Feed Additives register.

To be able to filter and to see more information, it is advised to download the register in Excel (see Food and Feed Information Portal: Feed Additives > Download Register in Excel format).

Timeline

The authorisations remain valid until the end dates listed in Table 1.
