

Feed additives: January–February 2026 authorisations, reauthorisations, and changes

Published by AGRINFO on 19 Mar 2026

Commission Implementing Regulations (EU) [2026/85](#), [2026/93](#), [2026/96](#), [2026/98](#), [2026/103](#), [2026/119](#), [2026/154](#), [2026/164](#), [2026/167](#), [2026/168](#), [2026/171](#), [2026/178](#), [2026/180](#), [2026/348](#), [2026/352](#), [2026/353](#), [2026/356](#), [2026/402](#), [2026/404](#), [2026/460](#)

What is changing and why?

Authorisations and reauthorisations

In January and February 2026, the EU authorised and reauthorised the feed additives listed in Tables 1 and 2. These authorisations are based on opinions published by the European Food Safety Authority (EFSA). The conditions of use are described in the respective Regulations.

Refusal

Regulation [2026/119](#) refuses authorisation of a preparation of carvacrol because the applicant has not adequately demonstrated its efficacy as a feed additive for weaned piglets.

In addition, changes to some existing Regulations regarding feed additives are listed in the AGRINFO Full report.

Actions

Non-EU countries producing feed additives, compound feed, and feed materials for export to the EU are recommended to check the status of the feed additives in the [EU Feed Additives](#) register.

To be able to filter and to see more information, it is advised to download the register in Excel format (see the [Food and Feed Information Portal webpage](#)).

Timeline

These authorisations and reauthorisations remain valid until the end dates listed in Tables 1 and 2.

For more information see the [full record](#) on the AGRINFO website – where you can also view the latest [AGRINFO Update](#) newsletters and [search](#) the database.

Tables & Figures

Table 1 New authorisations of feed additives (January–February 2026)				
Regulation/ notification	Additive	Use	Target	End date ^[1]
2026/85	Tartrazine	Colourant	Freshwater fish	4 Feb 2036
2026/93	L-lysine sulphate from <i>Corynebacterium glutamicum</i> CGMCC 23982	Amino acids, their salts and analogues	All animal species	5 Feb 2036
2026/96	Celery seed essential oil (<i>Apium graveolens</i>)	Flavouring compounds	Several species including poultry, pigs, ruminants, <i>Equidae</i> , fish (as listed in Annex)	5 Feb 2036
	Caraway essential oil (<i>Carum carvi</i>)			
2026/154	Sepiolitic clay	Binder and anti-caking agent	All animal species except: <ul style="list-style-type: none"> • ruminants (milk production, reproduction) • porcine species (fattening, weaned piglets) • salmonids • chickens (fattening) 	15 Feb 2036
2026/178	Eucalyptus tincture from <i>Eucalyptus globulus</i>	Flavouring compound	Certain poultry species and pigs for fattening (as listed in Annex)	15 Feb 2036
2026/348	<i>Lactocaseibacillus huelsenbergensis</i> DSM 115424	Silage additive	All animal species	10 Mar 2036
2026/352	L-arginine from <i>Escherichia coli</i> CCTCC M 20231961	Amino acids, their salts and analogues	All animal species	11 Mar 2036
2026/353	L-histidine and L-histidine monohydrochloride monohydrate from <i>Corynebacterium glutamicum</i> KCCM 80389	Amino acids, their salts and analogues	All animal species	11 Mar 2036
		Flavouring compound		
2026/356	Endo-1,4- β -xylanase from <i>Bacillus subtilis</i> LMG S-15136	Digestibility enhancer	Gestating sows	11 Mar 2036
2026/402	L-cystine from <i>Escherichia coli</i> DSM 34232	Flavouring compound	All animal species	17 Mar 2036
2026/404	6-phytase from <i>Komagataella phaffii</i> CGMCC 7.370	Digestibility enhancer	Poultry (fattening, laying/breeding) ornamental birds; piglets; porcine species (fattening/reproduction; sows and boars)	17 Mar 2036
[1] Authorisations/reauthorisations remain valid for 10 years from entry into force until the date mentioned in the column "End date".

Table 2 Renewed authorisations of feed additives (January–February 2026)				
Regulation	Additive	Use	Target	End date ^[1]
2026/103	<i>Enterococcus lactis</i> DSM 7134	Gut flora stabiliser	Sows	5 Feb 2036
2026/164	Choline chloride (aqueous solution and preparation)	Vitamins and related substances	All animal species	16 Feb 2036
2026/167	Clinoptilolite of sedimentary origin	Binder	All animal species	16 Feb 2036
2026/168	<i>Saccharomyces cerevisiae</i> CBS 493.94	Gut flora stabiliser	Ruminants for milk production or reproduction; young ruminants for fattening (except lambs); ruminants for fattening (except sheep)	16 Feb 2036
2026/171	Fumaric acid	Flavouring compound	All terrestrial animal species with specific conditions for poultry and pigs	16 Feb 2036
		Preservative		
2026/460	Thiamine hydrochloride	Vitamins	All animal species	19 Mar 2036
	Thiamine mononitrate
