Feed additives: March-April 2025 authorisations, reauthorisations, and corrections

Published by AGRINFO on 09 May 2025

Commission Implementing Regulations <u>2025/630</u>, <u>2025/634</u>, <u>2025/708</u>, <u>2025/711</u>, <u>2025/720</u>, <u>2025/756</u>, <u>2025/757</u>, <u>2025/782</u>

What is changing and why?

In March and April 2025, the European Union (EU) authorised or reauthorised the feed additives listed in Tables 1 and 2. These authorisations are based on opinions published by the European Food Safety Authority (EFSA). The conditions of use are described in the respective Regulations.

The EU has also reintroduced a method of analysis to determine carbonates in feed.

Actions

Countries outside the EU that produce feed additives, compound feed, and feed materials for export to the European Union should check the status of feed additives in the <u>EU Feed Additives</u> register.

To be able to filter and see more information, it is advised to download the register in Excel format (see <u>Food and Feed Information Portal</u>).

Timeline

The authorisations and reauthorisations remain valid until the end dates listed in Tables 1 and 2.

For more information see the <u>full record</u> on the AGRINFO website – where you can also view the latest <u>AGRINFO Update</u> newsletters and <u>search</u> the database.

Tables & Figures

Table 1 New authorisations of feed additives (March–April 2025)							
Regulation	Additive	Use	Target	End date			
2025/634	L-arginine produced with <i>Escherichia coli</i> CGMCC 7.401	Amino acids, their salts and analogues	All animal species	22 April 2035			
2025/711	Preparation of endo-1,4-beta- xylanase produced with <i>Trichoderma reesei</i> MUCL 49755 and endo-1,3(4)-beta- glucanase produced with <i>T. reesei</i> MUCL 49754	Digestibility enhancers	Suckling piglets	1 May 2035			
2025/720	Lentilactobacillus buchneri DSM 32651	Silage additive	All animal species	6 May 2035			
2025/756	L-valine produced with <i>Escherichia coli</i> CGMCC 22721	Amino acids, their salts and analogues	All animal species	12 May 2035

Table 2 Renewed authorisations of feed additives (March–April 2025)						
Regulation	Additive	Use	Target	End date		
2025/630	Essential oils of: geranium rose (<i>Pelargonium graveolens</i>); eucalyptus (<i>Eucalyptus globulus</i>); lemongrass (<i>Cymbopogon flexuosus</i>)	Flavouring compounds	All animal species	21 April 2035		
2025/708	Sodium ferrocyanide, potassium ferrocyanide	Anti-caking agents	All animal species	4 May 2035		
2025/711	Preparation of endo-1,4-beta- xylanase produced with <i>Trichoderma reesei</i> MUCL 49755 and endo-1,3(4)-beta-glucanase produced with <i>T. reesei</i> MUCL 49754	Digestibility enhancers	Pigs, minor porcine species (fattening); piglets (weaned); hens (laying); minor poultry (laying, fattening); turkey (fattening)	1 May 2035		
2025/752	L-tyrosine	Amino acids, their salts and analogues	All animal species	12 May 2035		
2025/757	Sepiolite	Binder, anticaking agent
