Fruits and vegetables: standard import values and additional import duties

Published by AGRINFO on 22 May 2025; Revised 11 Dec 2025

Commission Delegated Regulation (EU) 2025/2184 of 10 September 2025 amending Delegated Regulations (EU) 2016/232 and (EU) 2017/891 as regards certain rules on producer organisations, notification obligations of producer prices and implementation of certain import mechanisms in the fruit and vegetables sector

Commission Implementing Regulation (EU) 2025/2185 of 10 September 2025 amending Implementing Regulation (EU) 2017/892 as regards certain procedures, the calculation of standard import values and additional import duties

What is changing and why?

The European Union (EU) has updated the procedures for setting standard import values (based on average prices of imported fruit and vegetables) that are used to set entry prices for certain products (tomatoes, cucumbers, globe artichokes, courgettes, oranges, clementines, satsumas, mandarins, tangerines, lemons, table grapes, apples, pears, apricots, cherries, peaches, nectarines, plums) during certain periods of the year. Regulation 2025/2185 changes the reporting of import values to a weekly rather than a daily basis. It also clarifies the conditions under which additional import duties (tariffs) can be applied. Regulation 2025/2184 changes the rules on how EU Member States collect and notify the prices of imported fruit and vegetables to reflect the transition to weekly reporting.

Timeline

The Regulations apply from **24 December 2025**.
