Labelling of aromatised wine

Published by AGRINFO on 28 Feb 2024

Commission Delegated Regulation (EU) 2024/585 supplementing Regulation (EU) No 251/2014 of the European Parliament and of the Council as regards specific rules for the indication and designation of ingredients for aromatised wine products

What is changing and why?

The European Commission has amended rules on the labelling of ingredients in aromatised wine to help consumers understand which ingredients are used in the production of wine and which are present in the final product. The new Regulation also clarifies the labelling of certain ingredients: concentrated grape must, allergens, and “packaging gas” additives (used in bottling, but not in the final product).

Timeline

The new labelling requirements apply from 8 December 2023.

Products labelled between 8 December 2023 and 18 February 2024 can be marketed until stocks are exhausted.
