[Proposal](#) for a Regulation as regards certain market rules and sectoral support measures in the wine sector and for aromatised wine products

What is changing and why?

The European Commission proposes to set common rules on the labelling of low-alcohol wines, to simplify the rules on production of sparkling wines, and to align the rules on aromatised (flavoured) wines with those on non-aromatised wines. The aim is to support the development of the low-alcohol wine sector.
