EU pesticide approvals, renewals, and extensions in 2025

Commission Implementing Regulations <u>2025/96</u>; <u>2025/99</u>; <u>2025/103</u>; <u>2025/109</u>; <u>2025/150</u>; <u>2025/787</u>; <u>2025/833</u>; <u>2025/845</u>; <u>2025/1152</u>; <u>2025/1489</u>

Update

This report summarises new and renewed approvals so far in 2025. It also lists extensions of EU approval in 2025 (Table 1), and changes in conditions of use.

What is changing?

Approvals

In May 2025, the EU approved elemental iron as a low-risk active substance.

In January 2025, the EU approved the basic substance *Vitis vinifera* seed extract (grape seed extract), and the low-risk active substances *Betabaculovirus phoperculellae* and *Bacillus velezensis* strain RTI301.

Renewals

In July 2025, the EU renewed the approval of quinolin-8-ol as a candidate for substitution until 30 June 2032.

In May 2025, the EU renewed the approval of lenacil until 30 June 2040.

In January 2025, the EU renewed the approval of mepiquat chloride until 29 February 2040.

Extensions and amendments

So far in 2025, the EU has extended approval of the substances listed in Table 1.

Timeline

A comprehensive list of active substances, their legal status, and expiry dates can be found in the European Commission's Active substances, safeners and synergists database.

Recommended Actions

Suppliers to the EU market should monitor developments in EU pesticide approvals when considering longer-term strategies on agricultural practices and pest management.

Background

Approvals

A plant protection product or pesticide contains one or several active substances. Active substances must meet the established approval criteria (Regulation <u>1107/2009</u>, Art. 4), which include that there must be no harmful effects on human health or the environment.

Depending on their characteristics, some active substances can be approved as low-risk substances that fulfil certain criteria [Regulation <u>1107/2009</u>, Annex II(5)]. Low-risk substances are approved for 15 years instead of the standard 10 years, and enjoy more favourable data protection (13 years). Authorisation procedures are generally also shorter.

Renewals of approval

The Commission has established a series of work programmes to manage the renewal process. Each substance is allocated to an EU Member State for evaluation.

If no application is received for extension of approval, the initial expiry date will remain.

Extensions of approval

If an application for renewal cannot be fully evaluated before the expiry date, the approval can be extended to allow the evaluation to be completed.

Table & Figures

T COCICION	or exterioror	ns of approval in 2025	,
Active substance	Expiry date extended to:	Active substance	Expiry date extended to
Regulation 2025/99		Regulation 2025/787 [continued]	
Aureobasidium pullulans (strains DSM 14940, DSM 14941)	30 Jun 2027	Fluxapyroxad	31 Oct 2027
Bacillus amyloliquefaciens subsp. plantarum D747	31 Aug 2027	Gibberellic acid	31 Oct 2026
Benalaxyl-M	30 Sep 2027	Gibberellins	31 Oct 2026
Cyprodinil	31 Oct 2026	Halauxifen-methyl	5 Jan 2028
Dichlorprop-P	31 Oct 2026	Mecoprop-P	15 Oct 2027
Formetanate	30 Sep 2026	Paraffin oil	30 Nov 2026
Fosetyl	31 Oct 2026	Penthiopyrad	31 Oct 2027
Halosulfuron-methyl	15 Nov 2026	Pirimiphos-methyl	31 Jan 2027
lmazamox	30 Jun 2027	Propamocarb	31 Jan 2027
Milbemectin	31 May 2026	Propyzamide	30 Nov 2027
Phenmedipham	30 Sep 2026	Prothioconazole	31 Mar 2027
Pirimicarb	31 Oct 2026	Rimsulfuron	15 Aug 2028
Pseudomonas sp. strain DSMZ 13134	30 Jun 2027	Sedaxane	31 Oct 2027
Pyrimethanil	30 Jun 2026	Sulfoxaflor	18 Jan 2028
Pyriofenone	30 Jun 2027	Regulation 2025/1489	
Pyroxsulam	30 Sep 2027	Ametoctradin	31 May 2028
Spinosad	31 Oct 2026	Beauveria bassiana strains ATCC 74040 and GHA	15 Sep 2027
Sulphur	31 Jul 2026	Buprofezin	15 Dec 2026
Trichoderma asperellum (formerly T. harzianum) strains ICC012, T-25, and TV-1	30 Nov 2026	Clodinafop	31 Jul 2027
Trichoderma atroviride (formerly T. harzianum) strain T11	30 Nov 2026	Copper compounds	30 Jun 2029
Trichoderma gamsii (formerly <i>T. viride</i>) strain ICC080	30 Nov 2026	Cyflumetofen	15 Oct 2027
Trichoderma harzianum Rifai strains T-22 and ITEM 908	30 Nov 2026	Daminozide	15 Sep 2026
Triticonazole	31 Jan 2027	Flupyradifurone	09 Jun 2029
Ziram	31 Jan 2027	Helicoverpa armigera nucleopolyhedrovirus	15 Oct 2027
Regulation 2025/787		Mandestrobin	09 Jun 2029
1,4-dimethylnaphthalene	30 Nov 2027	Mandipropamid	30 Jun 2029
Amidosulfuron	30 Nov 2026	Metam	15 Nov 2027
Bentazone	31 Oct 2027	Pyraclostrobin	15 Sep 2026
Bixafen	31 Oct 2027	Rescalure	18 May 2028
Clomazone	30 Sep 2026	Spodoptera littoralis nucleopolyhedrovirus	15 Oct 2027
Fenoxaprop-P	30 Nov 2026	Streptomyces lydicus strain WYEC 108	30 Jun 2029
Fludioxonil	30 Sep 2026	Trichoderma asperellum strain T34	15 Oct 2027
Fluoxastrobin	31 Jan 2027	Trichoderma atroviride strain I-1237	15 Oct 2027
Flutolanil	15 Jun 2026
