Marketing standards in the hop sector

Published by AGRINFO on 26 Sep 2023

Commission Delegated Regulation (EU) 2024/602 as regards the marketing standards in the hop sector and repealing Commission Regulation (EC) No 1850/2006

Commission Implementing Regulation (EU) 2024/601 as regards the certification of hops and hop products and related controls

What is changing and why?

The changes are largely changed references to other updated EU laws, not to the content of the marketing standards. Suppliers of hops in non-EU countries must continue to provide an attestation of equivalence in order to export. This Regulation does not change this requirement.

Under the new rules, the names of the competent authorities in non-EU countries responsible for providing guarantees that exported hops meet EU standards will be published on the European Commission's website, instead of in an Annex to the Regulation.

Timeline

The new rules apply from 7 March 2024.
