

# Maximum residue levels for cymoxanil

Published by AGRINFO on 14 Dec 2022

## EU reduces MRLs for cymoxanil on grapes and spinaches

Commission Regulation (EU) [2022/1363](#) of 3 August 2022 amending Annex II to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for 2,4-D, azoxystrobin, cyhalofop-butyl, cymoxanil, fenhexamid, flazasulfuron, florasulam, fluroxypyr, iprovalicarb and silthiofam in or on certain products

### Update

The EU has published a Regulation that reduces the MRLs for cymoxanil on grapes and spinaches.

### Impacted products

grapes, spinach

### What is changing?

The amendments to existing MRLs are shown in Table 1.

In addition, the limit of determination is decreased for pulses from 0.05 to 0.01 mg/kg.

### Why?

Following a review of existing MRLs for cymoxanil ([EFSA 2019](#)), EFSA recommended changes to a range of products. MRLs were reduced for grapes and spinaches, and further evaluation was required for some other commodities.

### Timeline

The new MRLs will apply from 25 February 2023. Products lawfully placed on the EU market in compliance with old MRLs before 25 February may remain on the market after that date, even where not compliant with the new MRLs.

## Recommended Actions

Suppliers of grapes to the EU market should check the compatibility of their current use of cymoxanil with the new reduced MRLs, and make changes to good agricultural practices where necessary.

## Background

MRLs are set in accordance with the rules set out in Regulation [396/2005](#). For information on current MRLs for other substances, please consult the [EU Pesticide Residues database](#).

## Resources

EFSA (2019) [Evaluation of confirmatory data following the Article 12 MRL review for cymoxanil](#). EFSA Journal, 17(10): 5823.

## Table & Figures

Table 1 Maximum residue levels for cymoxanil			
Food category	Products	Cymoxanil (mg/kg)	
		Old MRL	New MRL
Berries and small fruits	Table grapes, wine grapes	0.3	0.05
Leaf vegetables	Spinaches	1	0.9
