

Maximum residue levels for etoxazole

Published by AGRINFO on 05 Mar 2023; Revised 03 Oct 2023

Regulation

Commission Regulation (EU) [2023/1783](#)

What is changing and why?

Changes to the maximum residue levels (MRLs) for etoxazole are set out in Table 1.

Actions

For all products in Table 1, it is recommended that suppliers review their current use of etoxazole and explore alternative solutions.

Timeline

The new MRLs will apply from **8 April 2024**.

For more information see the [full record](#) on the AGRINFO website – where you can also view the latest [AGRINFO Update](#) newsletters and [search](#) the database.

Tables & Figures
