EU increases MRL for sedaxane on potatoes

Commission Regulation (EU) 2023/129 of 18 January 2023 amending Annex II to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for azoxystrobin, prosulfocarb, sedaxane and valifenalate in or on certain products

Update

The EU has published a Regulation increasing the maximum residue level (MRL) for sedaxane on potatoes.

Impacted products

potatoes

What is changing?

The EU has increased the MRL for sedaxane on potatoes from 0.02 to 0.15 mg/kg.

Why?

In response to an application requesting modification of the existing MRL for sedaxane on potatoes, EFSA (2022) concluded that the requested modification was acceptable with regard to consumer safety.

Timeline

The new MRL will apply from 26 February 2023.
