

Novel food: 2'-Fucosyllactose from *Corynebacterium glutamicum* ATCC 13032

Published by AGRINFO on 16 May 2023

Commission Implementing Regulation (EU) [2023/859](#)

What is changing and why?

The EU has authorised 2'-Fucosyllactose produced by a derivative strain of *Corynebacterium glutamicum* ATCC 13032 as a novel food that may be placed on the EU market.

Actions

Only the company that applied for the authorisation, Advanced Protein Technologies Corporation, is authorised to place the novel food on the EU market for a period of 5 years, unless another company obtains an authorisation or has the agreement of Advanced Protein Technologies Corporation.

Timeline

The 5-year period of exclusive rights of Advanced Protein Technologies Corporation to put this novel food on the EU market ends on 16 May 2028.
