

Novel food: 3-Fucosyllactose from *E. coli* K-12 DH1

Published by AGRINFO on 24 Oct 2023

Commission Implementing Regulation (EU) [2023/2210](#) authorising the placing on the market of 3-Fucosyllactose produced by a derivative strain of *Escherichia coli* K-12 DH1

What is changing and why?

The EU has approved Glycom A/S's novel food 3-Fucosyllactose from *E. coli* (K-12 DH1) for use in cereals, milk drinks, medical foods, and supplements. Only Glycom can sell it in the EU for 5 years, unless another company gets approval from Glycom to sell it, or successfully applies for EU authorisation on the basis of its own scientific data without using Glycom's protected data.

Timeline

Glycom's 5-year period of exclusive right to put this novel food on the EU market begins in November 2023.
