Novel food: hydrolysed protein from spent barley/rice

Published by AGRINFO on 05 Jan 2024

Regulation (EU) 2023/2851 authorising the placing on the market of partially hydrolysed protein from spent barley (*Hordeum vulgare*) and rice (*Oryza sativa*) as a novel food

What is changing and why?

Based on an evaluation by the European Food Safety Authority, Evergrain LLC has gained EU approval to sell partially hydrolysed protein from spent barley and rice as a novel food for use in various foods in the EU.

Timeline

The 5-year period of Evergrain's exclusive right to put this novel food on the market begins on 10 January 2024.
