Novel food: yellow tomato extract

Published by AGRINFO on 14 Nov 2025

Commission Implementing Regulation (EU) 2025/2242 authorising the placing on the market of yellow tomato extract as a novel food.

What is changing and why?

The European Union (EU) has authorised the use of the novel food yellow tomato extract in food supplements intended for the adult population (excluding infants and children).

Food supplements containing yellow tomato extract must not exceed maximum levels of 100 mg/day, and their labelling must indicate:

- “yellow tomato extract”
- a statement that the food supplements should be consumed by adults only.

Only the company that applied for authorisation, Lycored Ltd, is authorised to sell this novel food on the EU market over the next 5 years, unless they permit marketing by other companies, or if another company obtains a novel food authorisation without making reference to scientific data protected by Lycored Ltd.

Timeline

This novel food may be placed on the EU market from **30 November 2025**.
