Plant health interceptions (EUROPHYT) in April 2025

Published by AGRINFO on 01 Jul 2025

April 2025 saw 85 interceptions due to harmful organisms involving 27 AGRINFO partner countries, and 521 interceptions due to other non-conformities involving 48 partner countries

TRACES: Number of occurrences of harmful organism(s) in commodities imported into the EU or Switzerland (April 2025)

Update

This report summarises EUROPHYT interceptions on products entering the European Union from low- and middle-income countries that occurred in April 2025.

In April 2025, there were 85 interceptions due to harmful organisms involving 27 AGRINFO partner countries, and 521 interceptions due to other non-conformities that involved 48 partner countries.

Impacted products

Plants and plant products

Interceptions

Harmful organisms

In April 2025 there were 85 EUROPHYT interceptions due to harmful organisms involving 27 low- and middle-income (AGRINFO partner) countries (see Table 1).

Other non-conformities

There were also 521 interceptions due to other non-conformities, involving 48 partner countries (see Table 2).

For more detail see TRACES: Number of occurrences of harmful organism(s) in commodities imported into the EU or Switzerland (April 2025).

Timeline

April 2025

What are the major implications for exporting countries?

EUROPHYT interceptions can have significant impacts on producers and exporters. A shipment is intercepted at EU border controls when products do not comply with the EU's phytosanitary requirements. As a result, the affected importer/ exporter/ producer may face a range of consequences, including delayed shipments, additional costs of testing and inspection, and potential rejections or destruction of their products. These interceptions can also damage the reputation of the producer/ exporter in the EU market, which may affect their ability to conduct future trade with EU buyers. It can also have impacts on the export sector as a whole, particularly when repeated interceptions lead to more stringent plant health measures or bans.

Recommended Actions

To avoid the risk of interceptions, producers and exporters must take proactive measures to ensure their products comply with EU phytosanitary requirements. This can include implementing effective pest management strategies, using certified seeds and planting material, and complying with regulations and standards.

Background

EUROPHYT is the European Union Notification System for Plant Health Interceptions.

The basis for EUROPHYT interceptions is the obligation for EU Member States (and Switzerland) to rapidly report the occurrence of harmful organisms and other non-conformities found during import controls, to prevent the introduction and spread of pests and diseases. Interceptions due to "other non-conformities" are usually caused by an inaccurate or missing phytosanitary certificate.

Notifications of such interceptions are disseminated EU-wide and to the National Plant Protection Organisation (NPPO) of the exporting country. The legal framework for EUROPHYT interceptions is provided by Regulation 2016/2031 on plant health. For more information about plant health law, see EU Plant Health Law explained.

Also see Official Controls Regulation - explained.

Tables & Figures

Table 1
EUROPHYT interceptions due to Harmful Organisms on plants – April 2025

Country of origin	Number of alerts	Intercepted products	Harmful organisms
Bangladesh	1	Angled luffas	Fruit flies
Brazil	1	Key limes	Bacterias
	1	Persian limes	Bacterias
Cameroon	4	Mango	Fruit flies
	5	Mango	Fruit flies
China	2	Sweet and chili peppers	Virus
	1	Common beans	Bacterias
	4	Tomato	Virus
Colombia	1	Naranjilla	Moths
Côte d'Ivoire	2	Mango	Fruit flies
Egypt	1	Potatoes	Bacterias
	2	Potatoes	Bacterias
Ethiopia	1	Fieldbriar	False codling moth
Guatemala	1	Zebra plant	Whiteflies
Honduras	1	Chili pepper	Weevils
India	1	Chrysanthemums	Thrips
Indonesia	1	Kaffir limes	Scales
	1	Kaffir limes	Fungus
	1	Swampweeds	Whiteflies
Kenya	1	Sweet and chili peppers	False codling moth
	1	Goatweed	Whiteflies
	1	Basil	Thrips
	2	Basil	Thrips
	3	Roses	False codling moth
Laos	1	Sweet and chili peppers	Fruit flies
Mali	2	Mango	Fruit flies
Mexico	2	Asparagus	Thrips
Peru	1	Asparagus	Moths
	1	Ginger	Bacterias
Rwanda	1	Roses	False codling moth
