

## Plant health interceptions (EUROPHYT) in June 2024

Published by AGRINFO on 24 Jul 2024

TRACES: <u>Number of occurrences of harmful organism(s) in commodities imported into the EU or</u> <u>Switzerland</u> (June 2024)

#### What is changing and why?

This report summarises plant health (<u>EUROPHYT</u>) interceptions of products entering the European Union from low- and middle-income countries that occurred in June 2024.

There were 98 EUROPHYT interceptions due to harmful organisms concerning 25 countries (see Table 1), and 308 interceptions due to other non-conformities concerning 35 partner countries (see Table 2).

Shipments are intercepted at EU border controls when products do not comply with the EU's phytosanitary requirements. EUROPHYT reports the presence of harmful organisms and other non-conformities found during inspections. Interceptions due to "other non-conformities" are usually caused by an inaccurate or missing phytosanitary certificate.

EUROPHYT interceptions can have significant impacts on importers, exporters, and producers. Those affected may face delayed shipments, additional costs of testing and inspection, and potential rejections or destruction of their products as well as reputational damage.

#### Actions

To avoid the risk of interceptions, producers and exporters must take proactive measures to ensure their products comply with EU phytosanitary requirements. This can include implementing effective pest management strategies, using certified seeds and planting material, and complying with regulations and standards.

#### Timeline

June 2024.

For more information see the <u>full record</u> on the AGRINFO website – where you can also view the latest <u>AGRINFO Update</u> newsletters and <u>search</u> the database.

### **Tables & Figures**

EUROPHYT in		Table 1 to harmful organisms on fruit a bles, and leaves – June 2024	nd vegetables, leafy
Country of origin	No. of interceptions	Intercepted products	Harmful organisms
Argentina	1	Lemons	Fungus
Brazil	14	Persian limes	Fungus
	4	Persian limes	Bacteria
	1	Mango	Fall armyworm
Burkina Faso	4	Mango	Fruit flies
Burundi	1	Sweet and chilli peppers	Fruit flies
Cambodia	3	Culantro	Whiteflies
	1	Mango	Fruit flies
Cameroon	2	Avocado	False codling moth
Colombia	2	Persian limes	Fungus
	1	Mango	Fruit flies
	1	Ground cherries	Virus
Congo, Democratic	1	Onions	Leaf-miner flies
Republic of	1	Common sorrel	Whiteflies
	1	Potatoes, tomatoes, peppers, eggplants, other <i>Solanaceae</i> species	Leaf-miner flies
Côte d'Ivoire	12	Mango	Fruit flies
Dominican Republic	1	Mango	Fruit flies
Egypt	1	Sweet oranges	Fruit flies
	1	Ground cherries	Flies
India	2	Mango	Fruit flies
Kenya	1	Basil	Thrips
Malaysia	2	Carambola	Fruit flies
Mali	3	Mango Fruit flies	
Mexico	3	Asparagus	Moths
	1	Persian limes	Scales
	1	Bitter melon	Moths
	1	Bitter melon	Thrips

		Continued		
Country of origin	No. of interceptions	Intercepted products	Harmful organisms	
Nigeria	1	Not specified	Whiteflies	
Peru	1	Asparagus	Moths	
	2	Asparagus	Fall armyworm	
	1	Persian limes	Fungus	
	1	Curcuma	Bacteria	
	2	Ginger		
Senegal	2	Ethiopian eggplants	Fall armyworm	
South Africa	1	Chilli pepper	Fruit flies	
	2	Bitter oranges	Fungus	
	1	Lemons		
Sri Lanka	1	Angled luffas	Fruit flies	
	2	Snake gourd, pointed gourd, other <i>Trichosanthes</i> species		
	1	Cowpeas, yardlong beans, other <i>Vigna</i> sub-species		
Tanzania	1	Courgettes, pumpkins, other <i>Cucurbita</i> species	Fruit flies	
Thailand	1	Asparagus	Butterflies and moths	
	2	Holy basil	Whiteflies	
	2	Betel leaves		
	1	Eggplant	Moths	
Vietnam	1	Chilli pepper	Fruit flies	
	1	Mango		
	1	Passion fruit (purple)		
	2	Java apple		
Zimbabwe	1	Lemons	False codling moth
