Commission Delegated Regulation (EU) 2024/2637 amending Delegated Regulation (EU) 2020/760 as regards the rules on the reference quantity for groups of tariff quotas in the poultry sector

What is changing and why?

What is changing and why?

The EU has revised its rules on the quantities of poultry that may be imported by individual operators under tariff quotas (see Table 1). The aim is to counteract the perceived unfair advantage previously enjoyed by importers of Ukrainian poultry, whose increased imports (due to temporary liberalisation) allowed them a greater share of quotas for poultry from Argentina, Brazil, and Thailand. Imports from “third countries” (non-EU countries) such as Ukraine are no longer taken into account when calculating the importers’ permitted quota share.

Timeline

The new rules apply to the poultry quotas for any tariff quota period opened after **11 October 2024**.
