Regulation

[Draft](#) Commission Delegated Regulation as regards the rules on the reference quantity for groups of tariff quotas in the poultry sector [Go to Download]

What is changing and why?

The European Commission proposes to revise the rules on the quantities of poultry that may be imported by individual operators under tariff quotas. The aim is to counteract the perceived unfair advantage enjoyed by importers of Ukrainian poultry who can use increased imports of poultry from Ukraine (due to temporary liberalisation) to gain a greater share of quotas for poultry from Argentina, Brazil, and Thailand.

Actions

There is an opportunity to comment on the draft Regulation via the EU's "[Have your say](#)" consultation until **3 July 2024**.

Timeline

The new rules are expected to apply from the third quarter of 2024.
