

Reports on non-compliance with EU food law and agri-food fraud: April 2025

Published by AGRINFO on 09 Jun 2025

Latest EU overview of food found not to comply with EU law

European Commission: [April 2025 Report on Agri-Food Fraud Suspicions](#)

Update

The European Commission publishes monthly overviews of foods that are not compliant with EU food law. The April 2025 report includes notifications concerning the following 29 AGRINFO [partner countries](#): **Afghanistan, Albania, Argentina, Bangladesh, Brazil, Cambodia, China, Colombia, Ecuador, Egypt, Georgia, India, Iran, Kenya, Lebanon, Mauritania, Mexico, Moldova, Morocco, Nigeria, Pakistan, Peru, Philippines, South Africa, Thailand, Türkiye, Uganda, Ukraine, Vietnam.**

These monthly overviews highlight ongoing and emerging risks of non-compliance that help agri-food exporters and competent authorities in non-EU countries to identify, monitor and address risks that may affect trade.

Impacted products

Cereals and bakery products; cocoa, coffee, tea; confectionery; crustaceans and their products; dietetic foods; eggs and egg products; fats and oils; food supplements and fortified foods; food contact materials; fish and fish products; fruits and vegetables; herbs and spices; honey and royal jelly; ices and desserts; meat and meat products; milk and milk products; non-alcoholic beverages; nuts, nut products, and seeds; other food products/mixed; poultry meat and products; prepared dishes and snacks; soups, broths, sauces, and condiments

Latest notifications

The April 2025 report includes notifications involving the following 29 [AGRINFO partner countries](#):

Afghanistan, Albania, Argentina, Bangladesh, Brazil, Cambodia, China, Colombia, Ecuador, Egypt, Georgia, India, Iran, Kenya, Lebanon, Mauritania, Mexico, Moldova, Morocco, Nigeria, Pakistan, Peru, Philippines, South Africa, Thailand, Türkiye, Uganda, Ukraine, Vietnam.

These notifications concern:

- product non-compliance and tampering (Table 1)
- record tampering; avoidance of control; false or deficient documentation (including mislabelling); identification, origin, and traceability defects (Table 2)
- non-compliance with maximum residue levels (MRLs) for pesticides and veterinary medicines (Table 3).

This report should be read in conjunction with the [April RASFF report](#). RASFF notifications that relate purely to consumer risk with no suspicion of fraud are not included in this report.

Timeline

These reports are issued every month.

Recommended Actions

Competent authorities in countries that are included in these monthly overviews should pay attention to any non-compliances identified in the reports. It is particularly important that the producers/export companies concerned are informed as soon as possible so that they can take action and prevent a recurrence. These incidents also potentially indicate a more widespread problem that may require a coordinated response by the food sector in the country concerned.

Background

These monthly reports compile information notified to the EU's Rapid Alert System for Food and Feed Network ([RASFF](#)), Administrative Assistance and Cooperation Network ([AAC](#)), and Agri-Food Fraud Network ([FFN](#)). The reports also include non-compliances with EU rules that do not present a risk, but have triggered investigations by the competent authorities of individual importing EU Member States.
