These monthly overviews highlight ongoing and emerging risks of non-compliance that will help agri-food exporters and competent authorities in non-EU countries to monitor and address risks that may affect trade.

#### What is changing?

The August 2024 report includes notifications impacting the following 27 <u>AGRINFO partner</u> <u>countries</u>:

Afghanistan, Argentina, Bosnia and Herzegovina, Brazil, Cambodia, China, Colombia, Costa Rica, Ecuador, Egypt, Guatemala, India, Iran, Kenya, Madagascar, Mexico, Morocco, Pakistan, Peru, Philippines, Serbia, South Africa, Sri Lanka, Thailand, Türkiye, Ukraine, Vietnam.

- non-compliance with maximum residue levels (MRLs) for pesticides and veterinary medicines (Table 3).

See <u>RASFF</u> notifications in August 2024.

### Timeline

These reports are issued every month.

#### **Recommended Actions**

Competent authorities in countries that are included in these monthly overviews should pay attention to any non-compliances identified in the reports. It is particularly important that the producer-export companies concerned are informed as soon as possible so that they can take action and prevent a recurrence. These incidents also potentially indicate a more widespread problem that may require a coordinated response by the food sector in the country concerned.

### Background

These monthly reports compile information notified to the EU's Rapid Alert System for Food and Feed Network (<u>RASFF</u>), Administrative Assistance and Cooperation Network (<u>AAC</u>), and Agri-Food Fraud Network (<u>FFN</u>). The reports also include non-compliances with EU rules that do not present a risk, but have triggered investigations by the competent authorities of individual importing EU Member States.
