

Reports on non-compliance with EU food law and agri-food fraud: October 2025

Published by AGRINFO on 11 Dec 2025

Latest EU overview of food found not to comply with EU law

European Commission: [October 2025 Report on EU Agri-Food Fraud Suspensions](#)

Update

The European Commission publishes monthly overviews of foods that are not compliant with European Union (EU) food law. The October 2025 report includes notifications concerning the following 23 AGRINFO [partner countries](#): **Argentina, Azerbaijan, Cameroon, China, Ecuador, Egypt, Guinea, India, Indonesia, Iran, Jordan, Lebanon, Malaysia, Moldova, Nigeria, Pakistan, Serbia, Sri Lanka, Syria, Thailand, Türkiye, Ukraine, Viet Nam.**

These monthly overviews highlight ongoing and emerging risks of non-compliance that help agri-food exporters and competent authorities in non-EU countries to identify, monitor, and address risks that may affect trade.

Impacted products

Cereals and bakery products; cocoa and cocoa preparations, coffee and tea; confectionery; crustaceans and products; dietetic foods, food supplements, and fortified foods; eggs and egg products; fats and oils; feed materials; fish and fish products; fruits and vegetables; food additives and flavourings; herbs and spices; honey and royal jelly; non-alcoholic beverages; meat and meat products (poultry, non-poultry); nuts, nut products, and seeds; other food products/mixed; prepared dishes and snacks; water for human consumption

Latest notifications

The October 2025 report includes notifications involving the following 23 AGRINFO [partner countries](#):

Argentina, Azerbaijan, Cameroon, China, Ecuador, Egypt, Guinea, India, Indonesia, Iran, Jordan, Lebanon, Malaysia, Moldova, Nigeria, Pakistan, Serbia, Sri Lanka, Syria, Thailand, Türkiye, Ukraine, Viet Nam.

These notifications concern:

- product and record tampering (Table 1)
- unauthorised foods, ingredients and origins, and residues not compliant with maximum residue levels (MRLs) (Table 2).

This report should be read in conjunction with [RASFF notifications in October 2025](#). RASFF notifications that relate purely to consumer risk with no suspicion of fraud are not included in this report.

Timeline

These reports are issued every month.

Recommended Actions

Competent authorities in countries that are included in these monthly overviews should pay attention to any non-compliances identified in the reports. It is particularly important that the producers/export companies concerned are informed as soon as possible so that they can take action and prevent a recurrence. These incidents also potentially indicate a more widespread problem that may require a coordinated response by the food sector in the country concerned.

Background

These monthly reports compile information notified to the EU's Rapid Alert System for Food and Feed Network ([RASFF](#)), Administrative Assistance and Cooperation Network ([AAC](#)), and Agri-Food Fraud Network ([FFN](#)). The reports also include non-compliances with EU rules that do not present a risk, but have triggered investigations by the competent authorities of individual importing EU Member States.
