Council Regulation (EU) 2025/2614 opening and providing for the management of autonomous tariff quotas of the Union for certain agricultural and industrial products

What is changing and why?

For 2026, the European Union (EU) has opened a duty free quota for mushrooms of the species *Auricularia polytricha* (for the manufacture of prepared meals) with a quota of 700 tonnes at 0% duty.

This type of "autonomous quota" (meaning the EU is under no obligation to do so) is opened by the EU where there is an inadequate supply of raw materials.

Full details (specific customs codes, and order number) are set out in the Annex to the Regulation.
