Template for fishery products dispatched from countries other than flag States

Published by AGRINFO on 17 Mar 2025

Commission Delegated Regulation (EU) 2025/453 supplementing Regulation 1005/2008 by establishing a template for the document referred to in Article 14

What is changing and why?

The European Union (EU) has introduced a uniform template for the information that must be provided when fishery products are imported into the EU by transiting through a country other than the flag State.

The new template ensures that the information required for the correct functioning of the EU's digital information system for catch certification (CATCH) is clear and consistent.

Actions

From 10 January 2026 a new information template must be used for fishery products that transit through countries other than the flag States without any processing or other physical alteration

Timeline

The new template must be used from **10 January 2026**.
