[Better Regulation Guidelines](#)

[Better Regulation Toolbox](#)

## Update

For some new policies and regulations, the EU gives the opportunity to all stakeholders (including those from non-EU countries) to provide their input and feedback. For more information on the EU consultation process, see [How to provide feedback on upcoming EU policies and regulations – explained](#). The upcoming initiatives so far announced for early 2025 are listed here.

## Background

The European Commission will be collecting feedback on the new agri-food policies and regulations listed below.

Once consultations are launched, all stakeholders (competent authorities, trade associations, individual exporters) may provide direct feedback via the EU's [Have your say](#) webpages.

Participating in this process is important, and helps to ensure that the interests of low- and middle-income countries are taken into account when new policies or regulations are developed by the EU.

These consultations are part of the Commission's commitment to greater regulatory transparency and are carried out in line with its [Better Regulation Guidelines](#).

## Recommended Actions

Keep track of the “Have your say” timelines listed in this record, which the EU updates on a regular basis. AGRINFO provides an up-to-date list of [Ongoing Consultations](#) relevant to the agri-food sector.

If there are currently problems in accessing the EU market due to the rules referred to in the areas above, these consultations offer an opportunity to highlight existing issues. Input into consultations is always best supported by relevant supporting information and data, so it is important to start collecting information at an early stage in anticipation of a consultation.
