

Welcome to Issue 45 of AGRINFO UPDATE. This issue highlights public consultation on the Common Fisheries Policy where stakeholders, particularly in countries that have Sustainable Fisheries Partnership Agreements with the European Union, are invited to respond. There is also opportunity for operators in Gabon to provide their experiences in relation to the EU–Gabon Fisheries Partnership Agreement.

Newly published Regulations include restrictions on fresh poultry meat and poultry products from Bosnia and Herzegovina, and the approval or renewal of several substances used in pesticides. The European Commission has outlined its intention to replace paper documents required for tariff rate quotas with an electronic system. And we provide overviews of recent RASFF notifications and plant health-related trade interceptions.
