

QUICK TUTORIAL – MRL TRACKER

To view recent and upcoming changes to EU pesticide maximum residue levels (MRLs) relevant to your products:

1. Select the products (crops) of interest from the dropdown list – please use English words:

Filter by product(s)

0620000 - Coffee beans 1

Coffee

0600000 - TEAS, **COFFEE**, HERBAL INFUSIONS, COCOA AND CAROBS

☒ 0620000 - **Coffee beans**

2. Select your preferred time range:

MRL changes in the last:

3 months

6 months

1 year

2 years

For each selected product, this will display:

(a) **Recent and upcoming MRL changes** (green section, top): showing the previous, current, and upcoming MRLs with their application dates, plus a link to the [EU Pesticides Database](#):

Coffee beans Coffea arabica, Coffea canephora; syn: Coffea robusta, Coffea liberica 13 changes since 08 2025 4 MRL(s) under discussion	Recent and upcoming: MRL changes since 08 2025 13		
	PREVIOUS MRL (mg/kg)	CURRENT MRL (mg/kg)	UPCOMING MRL (mg/kg)
	1,4-dimethylnaphthalene(R)(F) 0.05 22 Feb 2023	0.05 30 Apr 2025	0.03 06 Jan 2027
	Benfluralin (F) 0.1* 18 May 2015	0.05* 12 Aug 2026	- -

(b) **Upcoming MRL changes under discussion** (blue section, below): showing the current MRL of substances where a possible change is under discussion, with a link to the AGRINFO report giving details and estimated application date:

MRL changes under discussion 4		
PESTICIDE	CURRENT MRL(mg/kg)	REPORT
Cypermethrin (cypermethrin including other mixtures of constituent isomers (sum of isomers)) (F)	0.1* 27 Apr 2017	AGRINFO AGRINFO
Dicofol (sum of p, p' and o,p' isomers)(F)	0.1* 26 Apr 2013	AGRINFO

To search for MRLs by active substance, see [EU Pesticides Database: Pesticide Residues](#).
