CATCH

TRACES NT

Module managed by DG MARE

Developed according to the IUU Regulation

With its own business rules

CATCH

TRACES NT

Third country authorities shall maintain and keep up to date in TRACES NT, lists of food business establishments approved in accordance with EU food safety rules.

Factory Vessels

Freezer Vessels

Reefer Vessels

Processing Plants

CATCH

Summary ID

CATCH digitalizes the paper-based certification scheme.

EU's first IT tool to streamline the checks and verifications under the catch certification scheme for fishery products entering the EU market.

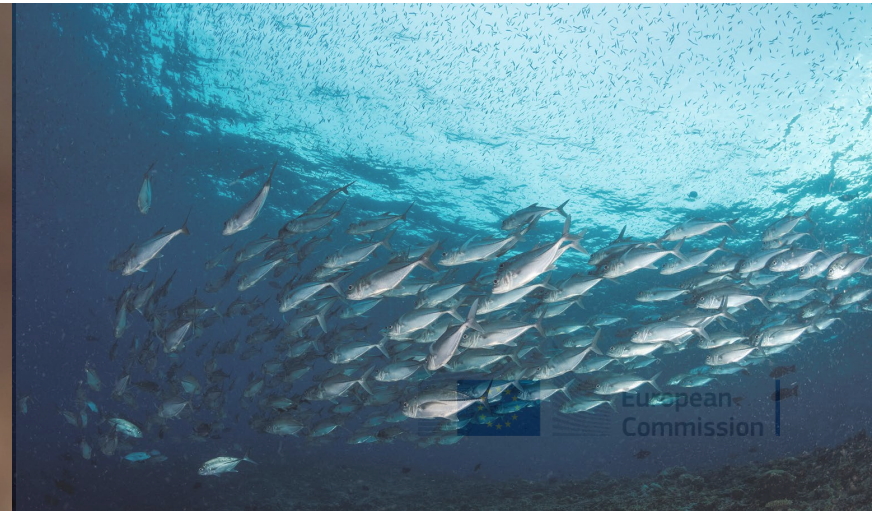

“The benefits of CATCH are manifold and undeniable; it will make possible to detect fraudulent catch certificates, support risk management in controls and harmonise the control procedures” (by Virginijus Sinkevičius, Csr for Environment, Oceans and Fisheries).

“With CATCH, we are making it simpler to take care of our ocean and our consumers” (by Karmenu Vella, Csr for Environment, Oceans and Fisheries).

IS THE USE OF CATCH COMPULSORY?

CATCH

Mandatory use

The use of CATCH is compulsory for EU operators and
Member State competent authorities for imports of fishery
products as of
10 January 2026

IMPORTATION

1 Importer

Receives catch certificates and related documents in paper → Needs to introduce data included on paper documents in CATCH. Then launches “Importer declaration” and submits all to the Import control authority.

2 Import control authority

Manual checks (between paper documents and the declared data in CATCH) and all other necessary checks and verifications.
Takes decision on importation.

IMPORTATION

Only actor filling in CATCH all data on behalf of all other actors involved

1 Importer

Receives catch certificates and related documents in paper → Needs to introduce data included on paper documents in CATCH.

Exporter
