

TRACES WEBINAR

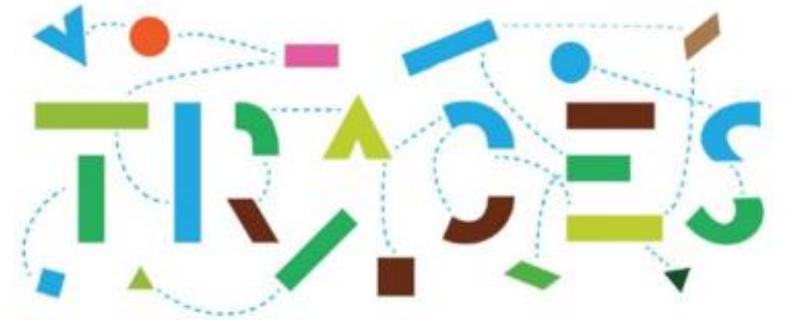

Use of TRACES for Fishery Exports to the European Union

**Supporting digital certification and official controls for exports
of fishery products to the European Union**

COLEAD Webinar on TRACES – September 2026

Prepared by TRACES Support Team - TRACES-Support@ec.europa.eu

Summary

Introduction to TRACES

Lists of approved establishments (LMS)

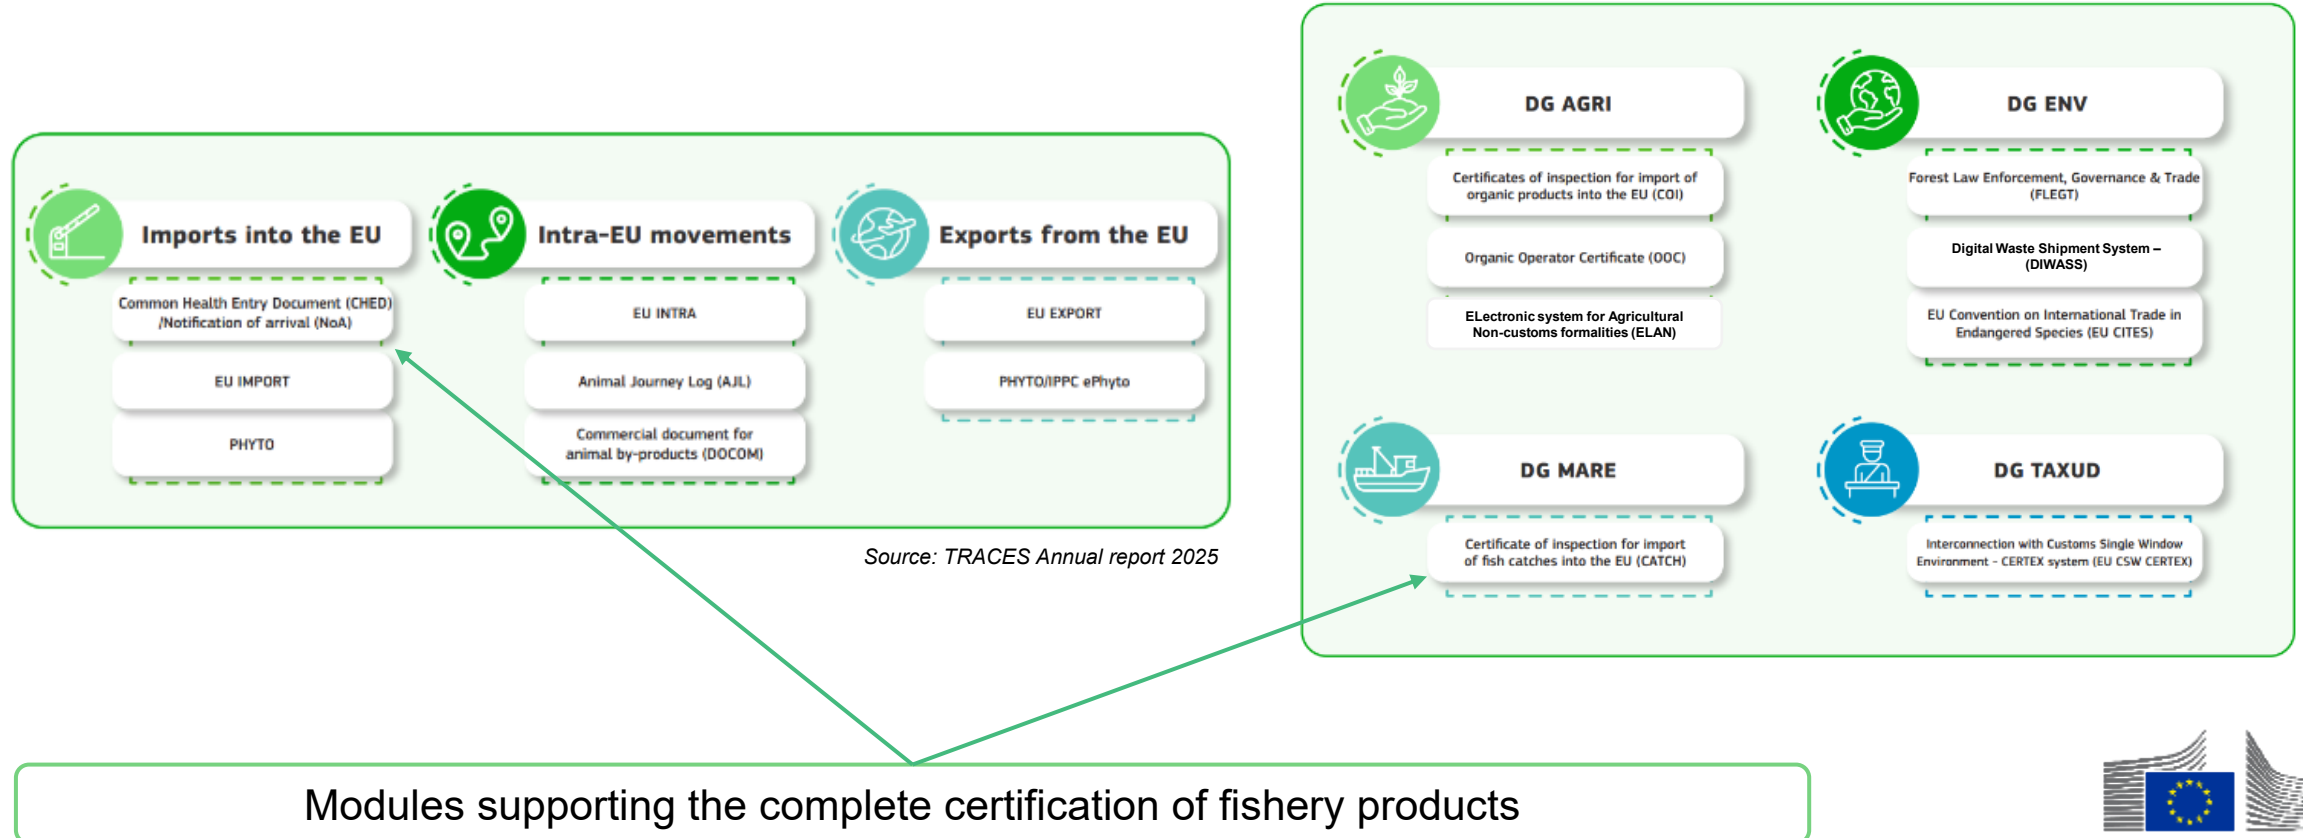

EU IMPORT module

Access to CHED-P

Introduction to TRACES

One Platform, Multiple Business Processes

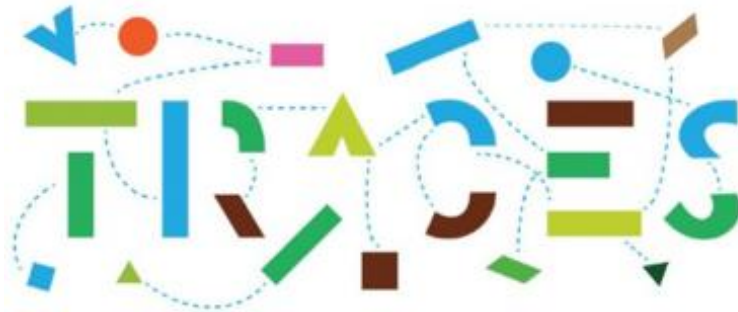

Certification, traceability and official controls across multiple EU policy areas

Introduction to TRACES

One Platform, Multiple Business Processes

TRACES' modules supporting the complete certification of fishery products:

EU IMPORT

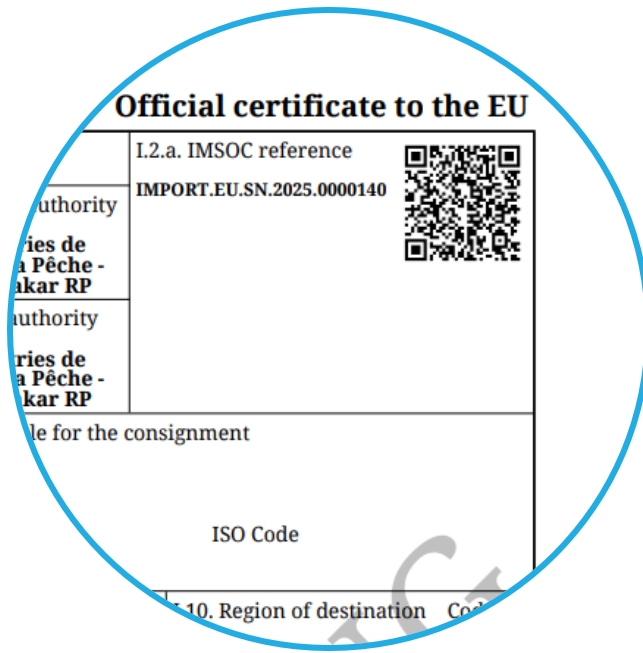

CATCH

Operators /
Non-Eu country Competent Authorities

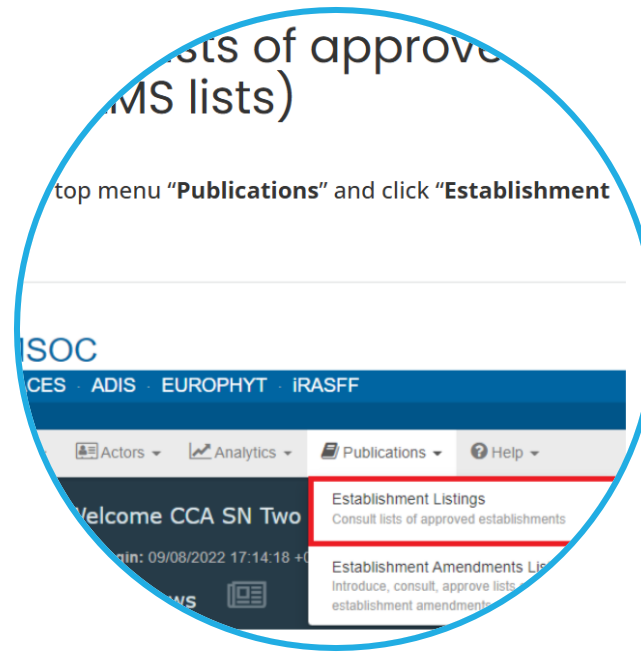

TRACES: the EC's online platform for SPS / food safety certification and clearance at EU border

Official certificate to the EU

Establishment Listings
Consult lists of approved establishments

Establishment Amendments List
Introduce, consult, approve lists
establishment amendment

Facilitate the application process for listing establishments authorised to export certain goods to the EU

** Non-EU countries are responsible for direct entry of their establishment data into TRACES*

CHEDP.DE.2020.000

PART II CONTROLS PART III FOLLOW UP

3. Documentary Check

☒ Yes ☐ No

EU Standard: ☐ Satisfactory ☒ Not satisfactory

5. Physical Check

☐ Yes ☒ No

☐ Satisfactory ☐ Not satisfactory

Checks reason: ☐ Reduced checks ☐ Other

Facilitate the access to records of outcome of official controls in EU entry documents

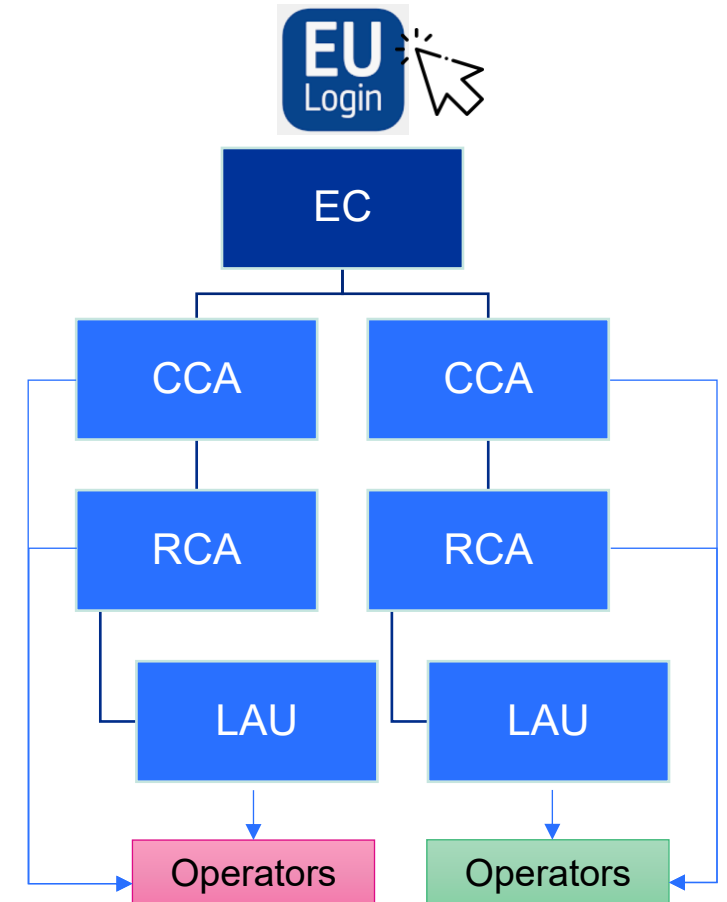

Other advantages of TRACES

Developed and maintained by European Commission, **free of charge**

Secured access to TRACES

- EU Login: access to platforms of the EU institutions
- Access rights to TRACES
 - Pyramidal principle: EC, actors (authorities, operators)
 - Difference between users and their role
 - Visibility / action rights depending on your role
- Customised administrative structure
- Terms and Conditions of Use

Enhanced Security with EU Login

The 2-factor authentication
is a second security layer
when connecting to an application.

2 dedicated Support Teams:

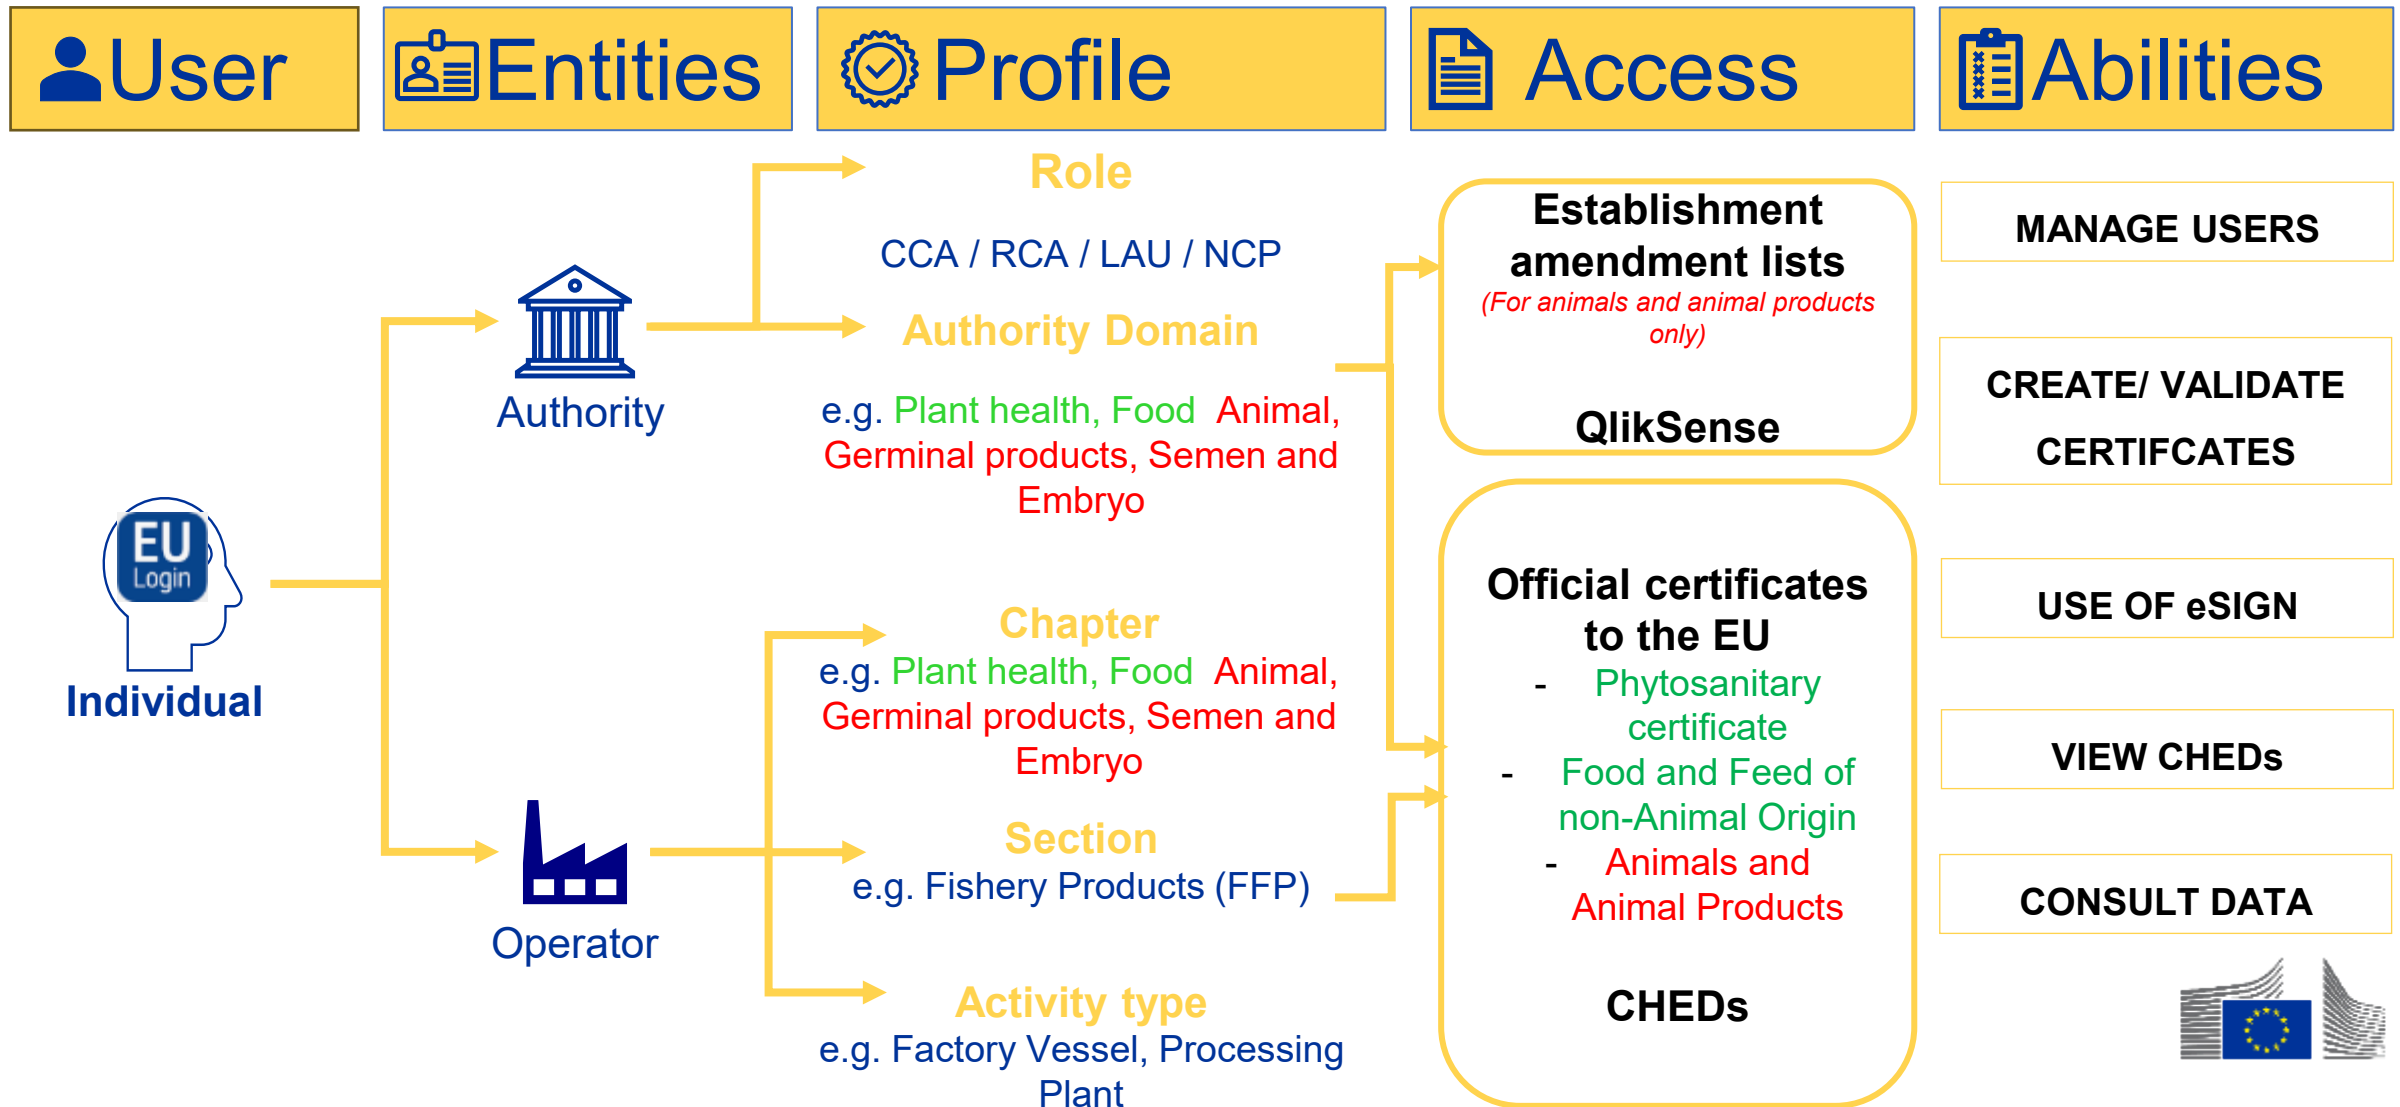

[EU Login user portal - European Union](#)

[Contact us - Food Safety - European Commission](#)

A user-oriented platform

Listing Management System (LMS)

Creating, updating and maintaining the **lists of establishments** authorised to export products to the European Union

Listing Management System(LMS)

As an **entry condition**, non-EU authorities must list their establishments authorised to export certain goods to the EU

'Lists of establishments' are proposed by authorities of approved (listed) non-EU countries and are publicly available at '[Establishment Listings](#)'

Documents ▾ ADIS ▾ Actors ▾ Geographics ▾ Reference Data ▾ Infrastructure ▾ Analytics ▾ Publications ▾ Help ▾

Establishment Lists

Chapter: ▾

Section: ▾

Establishmen

- Establishment Listings
Consult lists of approved establishments
- Establishment Listing Disclaimers
Manage disclaimers concerning approved establishment lists
- Establishment Amendments Lists
Introduce, consult, approve lists of establishment amendments...

Further guidance about listing procedure is available here:

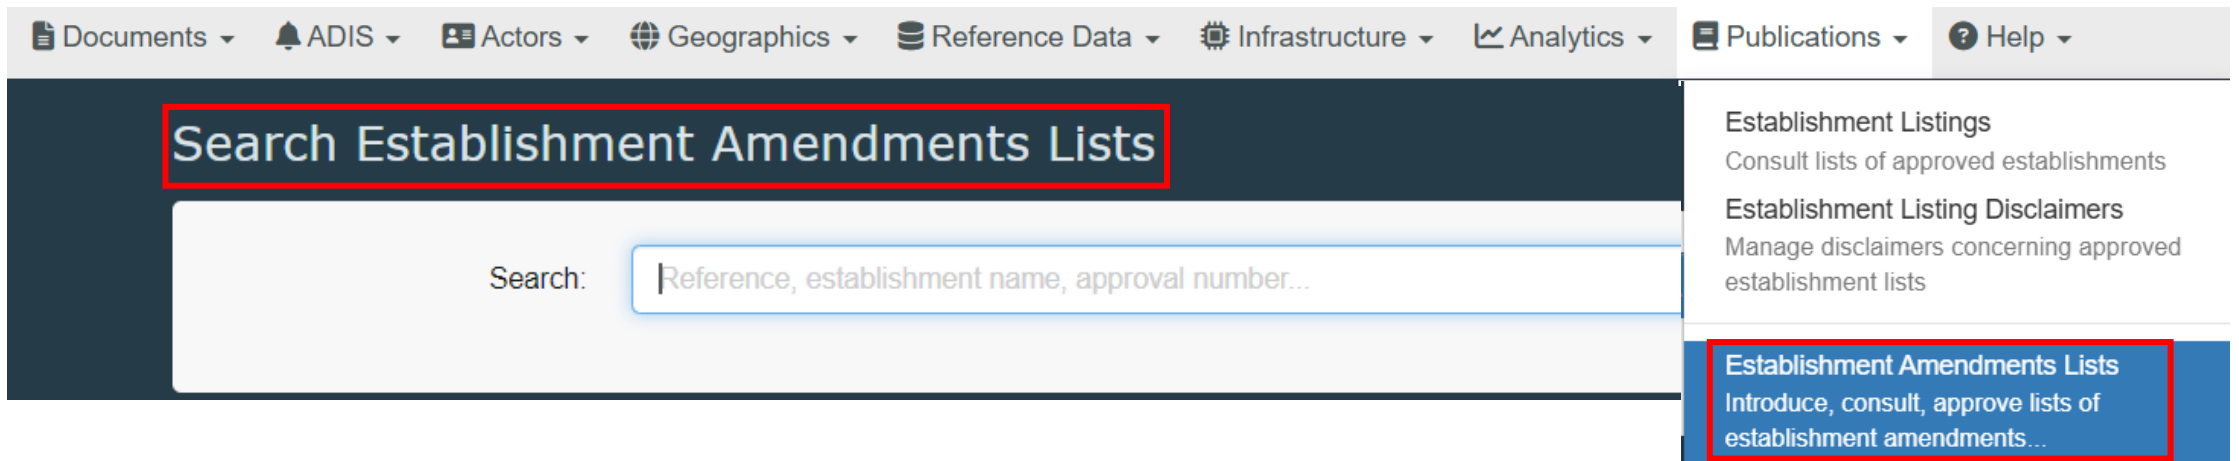

- https://food.ec.europa.eu/food-safety/biological-safety/food-hygiene/non-eu-countries-authorised-establishments_en
- <https://webgate.ec.europa.eu/tracesnt/directory/listing/establishment/publication/index#!/search>

Listing Management System(LMS)

'*National Contact Points*' (NCP) are designated by non-EU competent authorities to manage Lists of Establishments data directly in TRACES

NCPs can access '[Establishment Amendments List](#)' in the menu Publications for that purpose

The screenshot displays the Listing Management System (LMS) interface. At the top, a navigation bar includes icons and labels for Documents, ADIS, Actors, Geographics, Reference Data, Infrastructure, Analytics, Publications, and Help. Below this, a dark blue header section contains the text 'Search Establishment Amendments Lists' in white, which is highlighted with a red rectangular box. Underneath the header is a search input field with the placeholder text 'Reference, establishment name, approval number...'. To the right of the search field, a dropdown menu is open, showing three options: 'Establishment Listings' (with a sub-item 'Consult lists of approved establishments'), 'Establishment Listing Disclaimers' (with a sub-item 'Manage disclaimers concerning approved establishment lists'), and 'Establishment Amendments Lists' (with a sub-item 'Introduce, consult, approve lists of establishment amendments...'). The 'Establishment Amendments Lists' option is highlighted with a red rectangular box. At the bottom right corner of the slide, there is a logo featuring the European Union flag and a stylized building.

Listing Management System(LMS)

How can NCP in non-EU countries **create** new Establishment Amendments List?

The screenshot displays the LMS interface. At the top, a navigation bar includes links for Documents, ADIS, Actors, Geographics, Reference Data, Infrastructure, Analytics, Publications, and Help. Below this, a dark blue header contains the text 'Search Establishment Amendments Lists' and two buttons: 'My pending lists' and '+ New Establishment Amendments List'. The '+ New Establishment Amendments List' button is highlighted with a red rectangle. Below the header is a search bar with the placeholder text 'Reference, establishment name, approval number...' and a 'Search' button. To the right of the search bar, it says '5 / 5 results.' Below the search bar, a dark blue banner displays 'Create New Establishment Amendments List' with an 'Unsaved' status indicator. A green arrow points from the '+ New Establishment Amendments List' button to the 'Create New Establishment Amendments List' banner.

 Not mandatory fields

Official Certificates to the EU

Operators are able to submit the part I:

The screenshot shows a web form for creating an official certificate. The form is divided into two main sections. The top section contains fields for Commodity, Species, Cold store, Identification mark, Package count, Net weight, and Treatment type. The bottom section contains fields for Nature of commodity, Batch number, Final consumer, Date of collection/production, Manufacturing plant, and Quantity. The form is filled with sample data. At the bottom right, there is a dropdown menu for 'I.26. Total gross weight' and a 'Submit for Certification as' button, which is highlighted with a red box. The 'Save as draft as' button is also visible.

2022/36 (2020/2235) Live fish, free crustaceans and products of animal origin intended for HC (FISH-CRUST-HC)			
II. Health information		IMPORT EU/SM/2225.0000137	
"Manufacturing plant": includes factory vessel, freezer vessel, reefer vessels, cold store and processing plant.			
Part II:			
(1)	Part II.1. of this certificate does not apply to countries with special public health certification requirements laid down in equivalence agreements or other EU legislation.		
(2)	Part II.2. of this animal health/official certificate shall not apply and shall be deleted when the consignment consists of: (a) species other than those listed in the Annex to Commission Implementing Regulation (EU) 2018/1882; or (b) wild aquatic animals and products of animal origin from those aquatic animals which are landed from fishing vessels for direct human consumption; or (c) products of animal origin from aquatic animals, other than live aquatic animals, which are ready for direct human consumption without undergoing further processing in the Union.		
(3)	Species listed in columns 3 and 4 in the table of the Annex to Implementing Regulation (EU) 2018/1882. Species listed in column 4 shall only be regarded as vectors under the conditions set out in Article 171 of Delegated Regulation (EU) 2020/692.		
(4)	Keep if appropriate/ delete if not applicable. In the case of Part II.2.4.1, deletion is not permitted if the consignment contains listed species for Epizootic haematopoietic necrosis, Infection with Tauro syndrome virus or Infection with yellow head virus, other than in the circumstances referred to in footnote (6).		
(5)	Code of the third country/ territory/zone/compartment as it appears in column 2 of the table in Part I of Annex XXI to Implementing Regulation (EU) 2021/404.		
(6)	Parts II.2.3.1, II.2.3.2 and Part II.2.4. of this certificate do not apply and should be deleted if the consignment contains only the following crustaceans or fish:		
	(a) crustaceans which are packaged and labelled for human consumption in accordance with the specific requirements for those animals set out Regulation (EC) No 853/2004 and which are no longer able to survive as living animals if returned to the aquatic environment,		
	(b) crustaceans which are intended for human consumption without further processing, provided that they are packaged for retail sale in compliance with the requirements for such packages set out in Regulation (EC) No 853/2004,		
	(c) crustaceans which are packaged and labelled for human consumption in compliance with the specific requirements for those animals set out in Regulation (EC) No 853/2004 and which are intended for further processing without temporary storage at the place of processing,		
	(d) fish which are slaughtered and eviscerated before dispatch.		
(7)	Applicable when the Member State of destination in the Union either has disease-free status for a category C disease as defined in Article 1, point (3), of Implementing Regulation (EU) 2018/1882, or is subject to an optional eradication programme established in accordance with Article 31(2) of Regulation (EU) 2016/429, otherwise delete.		
(8)	Applicable when the Member State of destination or part thereof, in the Union has approved national measures for a specific disease as listed in Annex I or Annex II to Commission Implementing Decision (EU) 2021/260, otherwise delete.		
(9)	Susceptible species as referred to in the second column of the table in Annex III to Implementing Decision (EU) 2021/260.		
(10)	Shall apply only to the consignments of live aquatic animals.		
(11)	to be signed by :		
	- an official veterinarian when Part II.2 Animal health attestation is not deleted		
	- a certifying officer or an official veterinarian when Part II.2 Animal health attestation is		
Official veterinarian or Official inspector

How to access a CHED?

Central Competent Authorities (CCA) of non-EU countries are able to access any CHED depending on their domain of competence:

The screenshot displays the IMSOC (International Movement of Seals of Origin) web application. The interface includes a top navigation bar with the European Commission logo and the IMSOC title. Below this is a secondary navigation bar with links to TRACES, ADIS, EUROPHYT, and iRASFF. The main content area is titled 'Search for CHED / NoA' and features a search bar (labeled 3) with the placeholder text 'Please provide reference number...'. To the right of the search bar are buttons for 'Print document model' and 'My pending certificates' (labeled 2). Below the search bar, there are filters for 'Document Type' (CHED-PP, CHED-P, CHED-A, CHED-D, NOA) and 'Status' (Status dropdown, Rejected). A sidebar on the left (labeled 1) lists various document types under 'DG SANTE', with 'CHED/NoA' highlighted in a red box. The main search results area shows 'Showing 30 / 330 Total items' and a list of filters on the right, including 'Has pending laboratory tests', 'Has plant health non-compliance', 'Requires Follow-up', 'Transhipped', and 'Transfer'. A blue circle with the number 4 is positioned near the 'Status' filter.

Common Health Entry Document (CHED)

How to access a CHED?

Central Competent Authorities (CCA) of non-EU countries are able to **access the CHED Part I**

The screenshot displays the CHED-P interface. At the top, the document ID is 'CHED-P: CHEDP.DE.2025.00' followed by a redacted box. To the right, a red 'REJECTED' label is visible. Below the ID, a green 'Cloned from:' label is followed by 'IMPORT.EU.SN.2025.00' and another redacted box. The interface is divided into three main sections: 'PART I DESCRIPTION OF CONSIGNMENT', 'PART II CONTROLS', and 'PART III FOLLOW UP'. Below these, there are three input fields: 'I.1. Consignor/Exporter', 'I.2. TRACES Reference' (with a small icon), and 'QR code'.

'Cloning' mechanism means creation of a new CHED (e.g. CHED-P or CHED-A) by copying over data from a certificate signed in TRACES (e.g. an IMPORT), so that corresponding fields are pre-filled by TRACES, linking the certificate and the CHED.

Common Health Entry Document (CHED)

Getting Help with TRACES

User documentation, support channels and answers to your questions

Keep yourself updated

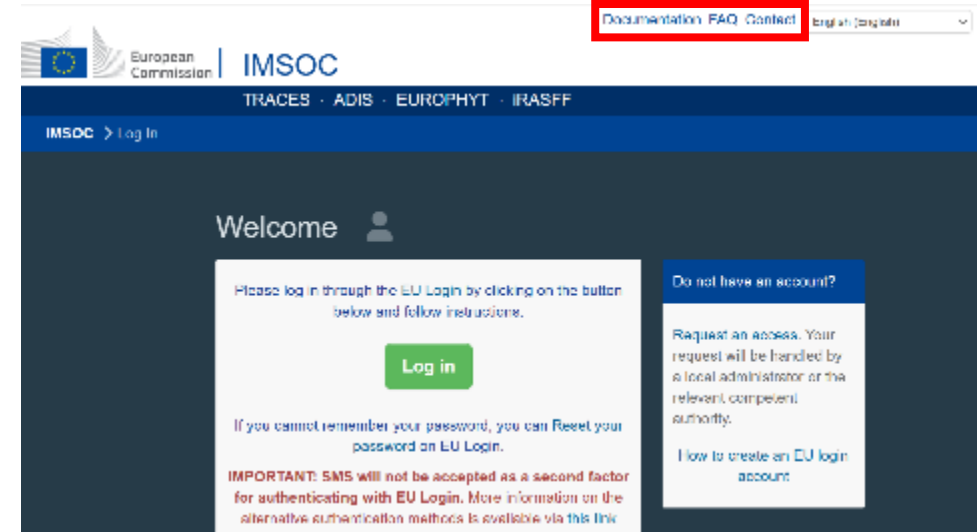

Updates and New Releases

The screenshot shows the IMSOC website with a navigation bar at the top. The main content area is divided into sections. A red box highlights a 'Planned Unavailability' notice for the 'New (beta) Version 3.5.0 - 18052025 14:00 CET - RELEASE NOTES AVAILABLE'. The notice includes details about the planned downtime and the availability of release notes. Other sections include 'Latest News' with articles about identification numbers and 'Planned Unavailability' for maintenance.

Whether you already have an account

Documentation / FAQ / Contact

The screenshot shows the IMSOC website's login page. The navigation bar at the top includes links for 'Documentation', 'FAQ', and 'Contact', which are highlighted with a red box. The main content area features a 'Welcome' message and a 'Log in' button. Below the login button, there is a section for users who cannot remember their password, with a link to 'Reset your password on EU Login'. An important note states: 'IMPORTANT: SMS will not be accepted as a second factor for authenticating with EU Login. More information on the alternative authentication methods is available via this link.' On the right side, there is a section for users who do not have an account, with links to 'Request an access' and 'How to create an EU login account'.

(include URL)
If possible

For improvement suggestions:
your competent authority should contact TRACES / DG SANTE

Provide as much information as possible to facilitate and optimise the response time

Responsibilities of TRACES Support Team

- ✓ Provide assistance with technical issues and system-related questions
- ✓ Guide users on the correct use of TRACES functionalities and available processes
- ✓ Support user account and access-related requests within the scope of TRACES
- ✓ Investigate reported incidents and requesting additional information when needed

TRACES Support Team does **not**:

- ✗ Validate operators, establishments, or other entities
- ✗ Approve or reject certification or official control decisions
- ✗ Grant authorisations or permissions that require action by competent authorities
- ✗ Modify data or records in TRACES
- ✗ Neither reply to policy/regulatory questions
